TECH STACKS

01 ■■■ CORE SKILLS

FRONTEND	Next.js 14, React.js, Tailwind CSS, React Three Fiber, GSAP, HTML/CSS, Responsive Design
BACKEND	Node.js, REST APIs, Supabase, PostgreSQL, Firebase, Express.js
AI & AGENTS	Claude API, OpenAI API, LangChain, Prompt Engineering, Agentic Workflows, Chatbots
MOBILE	React Native (Android + iOS), Android Studio, Java/Kotlin, Google Play Console
SCRAPING	Python, Playwright, BeautifulSoup, asyncio, OCR (Tesseract / Vision AI)
AUTOMATION	Telegram Bots, WhatsApp API, Webhook Integrations, Razorpay, Trading Bots
TOOLS	Git, GitHub, Vercel, Render, Figma, VS Code, FreeCAD, Python Scripting

02 ■■■ WHY WORK WITH ME

End-to-End I handle design, frontend, backend, database and deployment — one developer, zero handoff delays.	AI-First I integrate real AI agents into products, not just demos — Claude API, OpenAI, LangChain.
Fast Delivery Clean, maintainable code with daily progress updates and full source code ownership transfer.	Local + Global Based in Surat (IST) — available for Indian clients and US/EU timezone overlap.

Live Projects & Deliverables

FEATURED · PROJECT 01

EvaraGold — Luxury Jewellery Digital Showroom

Premium digital showroom for a Surat jewellery brand. 3D scrollytelling homepage (React Three Fiber + GSAP), live gold rate ticker, product catalogue with category filters, WhatsApp enquiry integration, mobile-responsive. Deployed on Vercel with Supabase backend.

Next.js 14 Supabase React Three Fiber GSAP Tailwind CSS Vercel WhatsApp API

◆ JEWELLERY

PROJECT 02

SoSurat.com

City discovery portal for Surat with multi-category listings, curated local business directory, and role-based user access.

Next.js Node.js Tailwind Vercel

sosurat.com

PROJECT 03

AdShot+ Studio

AI-powered creative SaaS platform. Mobile-first design with AI-assisted ad creation, smooth UI, and real-time preview.

React AI API Tailwind CSS

adshot.studio

PROJECT 04

GalaxyGlobalTech

Corporate website for an engineering tech company. Premium dark UI with service showcases, animations, and team section.

Next.js Tailwind Vercel

galaxyglobaltech.vercel.app

PROJECT 05

removecloths.com

Advanced AI image editing application built with powerful generative models for automated image segmentation and manipulation.

Next.js AI Vision Python Tailwind

removecloths.com

PROJECT 06

Intraday Trading Bot

Automated Indian stock market bot — real-time signal generation, position management, risk control, and Telegram alerts.

Python Dhan API Telegram Bot

Private / Internal Tool

PROJECT 07

Telegram Support Bot

Multi-step conversation bot with category selection, email verification, ticket ID generation, and admin notifications.

Python python-telegram-bot Render

Private / Internal Tool

PROJECT 08

Web Scraping Agents

Async data extraction pipelines for e-commerce platforms. Structured CSV export, proxy rotation, and error handling.

Python Playwright asyncio BeautifulSoup

Private / Internal Tool
